

KOMKHULU GROUP (PTY) Ltd

Prominent and Influential Persons

Company Vision

KOMKHULU GROUP is committed to building long term relationships based on integrity, quality, performance excellence and client satisfaction. We also deliver any project, on time, in any environment for the benefit of our customers, employees and communities.

Mission Statement

KOMKHULU GROUP is a dedicated team striving to bring growth to the community using value of effective construction practices and hard work to deliver best quality services and also assisting our client's expectations to promote long term partnerships.

We do this by offering:

- Best quality, effective, and professional execution.
- Right at first time
- Delivered on time

Company Values

The values we uphold in the conduct of our business are:

- **Honesty and Integrity**
To conduct our business; both internally and externally; in a manner which promotes honesty, trust and appropriate openness.
- **Excellence and professionalism**
To strive for professionalism and continuous improvement, by doing the right in a cost effective and innovative manner.
- **Customer orientated**
To recognise the impact of our action on both internal and external customers; stakeholders and to deliver a high level of customer service in everything we do.

Products & Services

KOMKHULU GROUP does not only produce bricks of quality, but also leaves each project knowing its teams have trained and skilled other people. Safety is most important part of the company's operating policy.

Services offered include bricks making, procurement management, project management, construction and general building. All of these are achieved through combination of in-house expertise and a network of industry expertise outside the company which the company has access to. From the company's inception, our focus has been on operation excellence in satisfying our client's requirements through meeting tight time schedules, budgetary constraints, quality implementation and compliance to the health and safety standards.

- **Civil Engineering**
Its main activities in the Civil engineering works focus on water reticulation, sewer reticulation, roads, storm water systems, earth works and municipal services.
- **Brick Manufacturing**

The company also manufactures concrete bricks, concrete paving bricks and supplies building material. The company's automated brick manufacturing facilities has a production capacity of 8 000 maxi bricks per shift of nine hours and 20 000 stock bricks per shift.

- **General Building and Construction**

In General Building works the focus is on property development, extensions of residential and industrial buildings, renovations of residential and industrial buildings, and alterations of residential buildings markets.

Property Development is also covered in our sphere of expertise. Financial feasibility and sustainability in our design allows us to create viable, well-planned developments increase property/asset values for prospective owners and improve the area's lifestyle.

Service Strategy

KOMKHULU GROUP represents teamwork, integrity and commitment. The company insists on high quality of service, hard work, and responsiveness to client's needs that remains the company's principle and has led to its success in this competitive environment. The company's ability to address changing conditions and demands, find and serve diverse markets, and expand its services has resulted into the company's growth.
